Dear Len,

I am not a bit surprised by your note on Bud Krogh. I always wondered about his ties into the intelligence community and the work he did carrying large amounts of money over to Southeast Asia to pay off some of the drug lords. That had to be agency work.

Sorry I don't remember the name of the contact person. It was in a file that I haven't seen in so long that I've really forgotten.

Sincerely,

MEMORANDUM FOR DEAN MOOR

SUBJECT: VIETNAM LAND REFORM

Attached is a very comprehensive report on the present land reform bill in South Vietnam.

Prosterman has enclosed a copy of the draft bill reported out of the Senate Agriculture Committee on December 19, 1969.

You have been talking with Roy Prosterman, I see, since it was reported out. The attached represents his assessment of where we are now and what he feels should be done in the near future.

While you will be receiving separate copies of the attached from him, I thought I'd get these on to you anyway.

Bud Krogh
